

EZeats Meal Center

FOR FASTRAK SCHOOL CAFETERIA

Yet another ingenious way PCS helps you speed up your lines so the children have ample time to enjoy their lunch and break periods.

First was PayPAMS.com for web pre-payment systems.

Next came the NetCASH machine so you did not need to handle cash at the lines, which in turn further sped up the lines.

And now...

EZeats MealCenter so you do not have to add another lunch period or shorten the time of the existing ones to feed more children in a timely manner.

Seamlessly integrates with PCS Fastrak POS system. The students can key in their pin code or student ID# and choose their reimbursable lunch. That's all that is needed to process the meal!

Also a great way to dispense a-la-carte meals for after school activities without using cash and staff to be present.

Features

- ✓ Multi-function temperature control with health safety timer
- ✓ Pre cool storage compartment
- ✓ First-in-first-out loading keeps product rotated
- ✓ Vending sensor system
- ✓ Adjustable air flow damper
- ✓ Variable air flow with multiple fans
